Policy Concerning OAEA Position Statements

Through active OAEA delegate participation in the ongoing NAEA position statement writing, revision, and approval process, it is unnecessary for the OAEA to duplicate Position Statements that already exist through NAEA. The OAEA may adopt existing NAEA position statements as their own.

OAEA Position Statements will be written, as needed to make available the position or beliefs of the organization regarding matters of *art education* in *Ohio*. Position statements may be suggested by OAEA members and authorized by a committee designated by the President. Position Statements will be evaluated by the OAEA Executive Committee for approval by the Leadership Assembly. Position Statements will be made available to members and the public to view in our print publication and/or website. Position Statements may be reviewed periodically through the OAEA Executive Committee.

Policy Concerning Problem Solving Leadership Performance

It is the intention of the Board of Directors to support all leaders in professional growth and effectiveness in their voluntary position. In the event an elected or appointed leader is not performing the duties required of that position the President shall conduct or lead a timely investigation to find evidence of the allegations. Findings will be discussed with the Board of Directors to seek resolution. An appropriate intervention along with a mentor or team may be assigned to support the leader to improve performance. Goals and accountability measures may be set. In the case a leader is not able to improve and meet their required duties the leader will be asked to step down and a new interim leader will be appointed to assume duties.

Policy Concerning Archiving Positions

In the event a position is no longer relevant for active practice, within the function of the organization, the position will be voted to be “archived” by the Board of Directors. Archived materials will be kept in digital files.

Policy Concerning Archiving Policies & Procedures

In the event a policy or procedure is no longer relevant for active practice, within the function of the organization, the policy or procedure will be voted to be “archived” by the Board of Directors. Archived materials will be kept in digital files.

Document Destruction Prohibited

No officer, director, employee, or agent of the Association shall knowingly destroy a document with the intent to obstruct or influence the investigation or proper administration of any matter within the jurisdiction of any government department or agency or in relation to or contemplation of any such matter or case.

Retaliation Against Whistleblowers Prohibited

No officer, director, employee, or agent of the Association shall take any harmful action with the intent to retaliate against any person, including interference with employment or livelihood, for providing to a law enforcement officer any truthful information relating to the commission or possible commission of any offense.

Conflict of Interest Policy

OAEA leadership, committee members, staff, and other volunteers, while acting on behalf of OAEA, should avoid conflicts of interest. Even the appearance of a conflict of interest should be avoided. All actions should be based solely on the best interests of OAEA, in accordance with applicable state and federal laws and regulations. Actions should not be influenced by personal considerations.

A conflict of interest occurs whenever an individual has a direct or indirect interest, financial or otherwise, in the outcome of any transaction or matter involving OAEA. A conflict of interest also occurs whenever an individual has a relationship with other parties to the transaction or matters in a manner adverse to OAEA.

Depending upon the immediacy and seriousness of the conflict, a number of resolutions are possible. If the conflict is minimal, it may be cured through nothing more than disclosure of the interest and a pledge to remain objective and neutral to it. Other conflicts are more serious and may require the Leadership Assembly or committee member to remove themselves from any involvement in the association’s discussions or decision making on the matter. (This is called recusal.) In rare cases, conflicts are so immediate and serious that resignation from the board, committee, or other association assignment is the only prudent means of avoiding the conflict.

It is the prerogative of the leadership assembly, not the individual, to determine how severe a conflict is and the appropriate steps that must be taken to remedy it.

Interests do not often, per se, create actual conflicts. Individuals often have fully legitimate responsibilities to more than one board or organization. It is only when some specific issue arises in which both organizations have a direct interest that an actual conflict exists. It is important to stress that the existence of a conflict of interest and the actions taken to resolve that conflict are **not** punitive or a negative reflection on the affected Leadership Assembly or committee member's ethics, commitment to OAEA, or judgment. If an individual has a conflict of interest or potential conflict of interest in connection with any OAEA transaction or matter, he or she should immediately notify the President, Executive Director, or other appropriate OAEA representative.
